

1/4" Galvanized Threaded "T"

Quantity Needed: 4

This is both the easiest part to find but also the hardest. Home Depot almost always has them in stock, as do other smaller hardware stores even though Lowes doesn't carry them. But aside from Plumbing Fittings Direct they are pretty tough to find at a reasonable price online.

1/4" Galvanized Threaded 90° Elbow

Quantity Needed: 1

Similar to the "T"s, this is often stocked alongside other 1/4" fittings and can be tough to find if you don't have a Home Depot nearby. The good news is that Plumbing Fittings Direct rarely runs out of them and can usually ship them pretty quickly.
